Plymouth Training Schools Consortium

Evaluation Form (subject mentors)

As part of the ongoing self evaluation process I would like you to complete this evaluation form. By doing so I will be able to improve what we do and make your role more rewarding.

Please take a little time over your answers and complete the boxes as fully as possible.

1. Are you well supported in your role as a subject mentor? Try to give evidence in your answer

2. What has been the impact of having trainees in your department? (Try to use data to support your answer)
3. What additional work needs to be done to support your work as a subject mentor?

4. Are there any research opportunities in your area and how can I support you to develop your ideas?
Any other comments you would like to make?
